

# Business Safety Forum

Monash is a relatively safe place for business and we want to help you keep it that way.

Are you up-to-date with new crime prevention products, services and innovations, as well as current practical advice?

This forum is for small to medium businesses to learn new ways to protect your business from crime. Hear from Victoria Police on how to prevent your business from becoming a target for thieves.

This event will highlight practical ideas to keep your business safe, new technologies, products and services for protecting yourself, your business premises and your staff, and what to do to protect a crime scene to avoid contamination of evidence, with question time.
